Your Eminence,

RECOMMENDATION LETTER FOR DARIUSZ ANDRZEJCZAK

As the Catholic Bishop of the Diocese of Banjul, The Gambia, I fully recommend Dariusz Andrzejczak to you in his capacity as the founder of Smile for Africa and FHS Foundation in Poland. He has been engaged in charitable works in The Gambia for five (5) years, and this year he focused his attention and efforts on assisting the Catholic community in the Diocese of Banjul. He has regularly attended and participated in the Diocese's liturgical celebrations while he is in The Gambia.

The Gambia is the smallest country in continental Africa with no mineral and natural resources. It is, therefore, one of the poorest countries in the world with majority of its citizens living in extreme poverty. For this reason, the Diocese is very involved in school education because it is the ultimate solution to combating ignorance and poverty and ensuring a better future for all Gambians.

Unfortunately, our resources are limited to provide enough structures and educational facilities to the students in serious need of education and religious and moral formation. The Diocese, therefore, needs financial assistance, in order to, provide good quality education for the students and create the opportunities for them to contribute towards our national development.

Our first priority project, in that respect, is the construction of a Catholic School in Brikama that is now the second biggest urban town in the Greater Banjul Area. This will provide easy access to education for the students in this town and also enable the Diocese to develop and oversee their curriculum program of studies.

The Diocese also needs financial assistance to continue its mission of evangelization in a Muslim dominated country like The Gambia. Our Catholic faithful have increased over the years so we need to build more churches to accommodate the growth in numbers, especially, in areas affected by urban migration. One of these communities is Bakary Sambouya which is presently an outstation of Resurrection Parish in Brikama.

In view of our limitations and challenges, I am extremely grateful to Mr. Dariusz Andrzejczak's commitment to assist our Diocese and the Catholic community in The Gambia. His unwavering efforts, generosity, and dedication to charitable causes are commendable and admirable. I am,

therefore, confident that with his support, our shared values and goals will be achieved, and the Catholic community in The Gambia will effectively promote evangelization and education.

As the Bishop of the Diocese of Banjul, I encourage you to support Mr. Andrzejczak and his Foundations and I pray that our joint plans will be realized for the good of God's faithful people in The Gambia.

Yours in Christ,

+ Gabriel CSSp.
